

Name: _____ Date: _____

Answer Key: Style, Sound, and Screen: A 2nd Grade Trendsetters Quiz

Visual analysis, pattern recognition, and cultural evaluation. Students critique how costume choices and musical beats influence our daily feelings and fashion.

1. Imagine a new movie comes out where every hero wears a bright neon green hat. What will most likely happen at the clothing store next week?

Answer: B) The store will start selling many neon green hats because fans want to look like the heroes.

When people see a trend in a popular movie, they often want to copy that style, which changes what stores decide to sell.

2. If a famous singer starts wearing pajamas on stage, it might make other people feel that it is okay to wear comfy clothes in public.

Answer: A) True

Music stars are influencers; their fashion choices can change what 'normal' clothing looks like for everyone else.

3. In a movie about the future, the characters use recycled trash to make sparkly capes. This trend is trying to teach the audience about _____.

Answer: C) Protecting the environment

Using recycled materials in fashion is a trend used to show that we care about the planet and being eco-friendly.

4. Why do filmmakers use fast, loud music during an action scene where a character is running?

Answer: B) To make the audience feel excited and nervous.

Music trends in film help control the 'mood.' Fast beats match fast movement and build excitement for the viewer.

5. Trends in fashion and music stay exactly the same for 100 years and never change.

Answer: B) False

Pop culture changes constantly as new technology is invented and new ideas become popular.

6. If a cartoon character wears a specific type of fancy sneakers, and then many kids buy those sneakers, this is called a _____.

Name: _____ **Date:** _____

Answer: D) Cultural trend

A cultural trend happens when a large group of people starts following the same style or hobby because of media influence.

7. Which of these is the best example of a trend coming from a video game into real life?

Answer: A) A student doing a dance move at recess that they saw their game character do.

Popular movements or 'emotes' from digital games often become trends in real-world playgrounds.

8. Fashion trends can help tell a story about where a person is from or what they believe in.

Answer: A) True

Clothing is a form of communication. It can show a person's culture, their job, or their favorite type of music.

9. If you see a movie where the hero wears a cape made of a flag from a different country, what is the director likely trying to show?

Answer: B) That different cultures and countries are important.

Using symbols from other cultures in film trends helps promote diversity and global awareness.

10. When musicians use computers to make 'space sounds' in their songs, they are using _____ to change how music sounds.

Answer: C) Technology

New technology allows musicians to create digital sounds that weren't possible in the past, leading to new trends in music.
