

Name: _____ Date: _____

Answer Key: A Rainbow of Feelings: 2nd Grade Personality Mix-Up

Students apply social-emotional analysis to identify how different characters react to playground challenges, mapping traits to real-world behavioral choices.

1. Leo loves to try new snacks and visit new parks every weekend. Which word best describes this part of Leo's personality?

Answer: A) Adventure-seeking

Personality traits describe patterns of behavior; seeking out new experiences is a common trait called being adventurous or open.

2. True or False: A person's personality is made up of the way they usually think, feel, and act.

Answer: A) True

Personality is the unique combination of patterns in our thoughts and behaviors over time.

3. Maya is very _____ because she always remembers to say 'please' and 'thank you' to her classmates.

Answer: B) Polite

Being polite is a personality trait shown through consistent manners and kindness toward others.

4. Sam felt nervous about the talent show, but he remembered how well he practiced and decided to perform anyway. What helped Sam's personality shine?

Answer: C) His self-confidence

Self-confidence is a belief in your own abilities, which is a key part of how social-cognitive theories explain behavior.

5. When Carlos watches his older brother tie his shoes carefully, Carlos starts to be careful with his toys too. This is an example of _____ learning.

Answer: A) Observational

Observational learning happens when we develop traits or behaviors by watching how others act.

6. True or False: Two people can have the exact same personality and react the same way to everything.

Name: _____ **Date:** _____

Answer: B) False

Everyone's personality is unique due to their specific mix of traits and life experiences.

7. Sarah likes to sit quietly and draw by herself to feel happy. Most people would say Sarah is an ____.

Answer: B) Introvert

Introverts often gain energy and joy from quiet, solitary activities like drawing or reading.

8. Even though Jamie was once shy, being in a friendly soccer team made Jamie more ____, showing that our environment changes us.

Answer: B) Outgoing

Being 'outgoing' is the opposite of being shy; it shows how a supportive environment can encourage new social traits.

9. True or False: Your 'Ideal Self' is the person you wish you could be, like being extra brave or super kind.

Answer: A) True

In humanistic theory, the 'Ideal Self' represents our goals and the person we strive to become.

10. If a student shares their crayons because they believe it is the 'right thing to do,' which part of their mind is likely leading them?

Answer: C) The Conscience

The conscience (related to the psychodynamic superego) is the part of personality that focuses on rules and doing what is right.
