Name: _____     Date: _____

# Answer Key: Paw Patrol: The Secret Digital Code Quiz for Kindergarten

Young learners solve real-world safety puzzles by identifying digital 'stranger danger' and practicing the 'Ask First' rule before clicking new buttons.

---

**1. You are playing a game and a bright, flashing box pops up that says 'Click here for a surprise!' What is the safest thing to do?**

**Answer:** B) Ask a grown-up for help before clicking

> In cybersecurity, we teach 'Stop, Look, and Ask.' Kindergarteners should always verify unfamiliar digital pop-ups with a trusted adult to avoid malware.

**2. If a person you don't know sends you a message in a game, you should tell a teacher or parent right away.**

**Answer:** A) True

> This applies 'Stranger Danger' concepts to the digital world. Reporting unknown contacts is a primary safety behavior for young children.

**3. Your tablet password is like a secret _____ that only you and your parents should know.**

**Answer:** C) Key

> Using the 'Key' metaphor helps students understand that passwords provide access and must be kept secure to protect their digital space.

**4. Which of these is okay to share with a person you just met online?**

**Answer:** C) Your favorite color

> Students must differentiate between Personally Identifiable Information (PII) and non-sensitive information like a favorite color.

**5. It is okay to use your iPad in the bathtub since it is a safe place.**

**Answer:** B) False

> Physical safety and device care are foundational modules in early childhood technology curriculums (Digital Citizenship).

---

**Name: _____          Date: _____**

**6. If a game asks for your _____ number, you should never type it in without asking a parent.**

**Answer:** A) Phone

Recognizing specific types of private data, like a phone number, is a key formative assessment goal for this age group.

**7. A new game asks to take a picture of your face. What should you do first?**

**Answer:** B) Ask an adult if it is safe

This teaches application of the 'Permission First' rule regarding biometric data and privacy.

**8. Everything you see on the internet is always true.**

**Answer:** B) False

Introducing basics of information literacy prevents future susceptibility to scams and misinformation.

**9. Before you download a new _____, you must ask a grown-up.**

**Answer:** B) App

Guided access and adult supervision are critical for early childhood cybersecurity to prevent accidental malware downloads.

**10. If you accidentally see something online that makes you feel scared or sad, what is the best thing to do?**

**Answer:** B) Tell an adult you trust

Formative assessment of emotional response and incident reporting. Trusting an adult is the most effective way for a K-student to handle digital incidents.
