## Geopolitical Ripples: 7th Grade Global Events Analysis Quiz

Analyze the systemic impact of soft power, maritime trade disruptions, and digital ethics in this investigation of contemporary global dynamics.

---

**1. A nation increases its global influence through 'soft power' by funding international student exchange programs and exporting its cinema. Which of the following best analyzes the intent of this strategy?**

- A. To bypass international trade tariffs on physical goods
- B. To shape international preferences through cultural appeal rather than coercion
- C. To establish a formal military alliance with neighboring superpower nations
- D. To devalue currency in order to increase manufacturing exports

**2. True or False: If an international court issues a ruling on deep-sea mining rights, that ruling is primarily considered a 'local issue' because it only affects the specific mineral site.**

- A. True
- B. False

**3. When a major canal experiences a blockage that halts 12% of global trade, economists analyze the \_\_\_\_\_ effect, where a single localized event triggers a chain reaction of supply shortages worldwide.**

- A. Stagnation
- B. Domino
- C. Isolationist
- D. Sovereignty

**4. A journalist writes a report on a new technology tax but only interviews the CEOs of tech companies and excludes comments from consumer rights groups. This is an example of:**

- A. Fact-checking protocols
- B. Objective synthesis
- C. Bias by selection of sources
- D. Global perspective integration

**5. True or False: Predictive AI algorithms used in social media feeds can create 'echo chambers' that influence current events by reinforcing a user's existing political beliefs.**

- A. True
- B. False

**6. Analyzing how a drought in Southeast Asia affects the price of electronics in Europe is a study of \_\_\_\_\_, or the way nations rely on one another for resources and markets.**

- A. Autocracy
- B. Interdependence

Name: \_\_\_\_\_ Date: \_\_\_\_\_

- C. Nationalism
- D. Urbanization

**7. Which of these scenarios represents a 'grassroots' movement affecting a national current event?**

- A. A President signing an executive order to change energy policy
- B. A multinational corporation moving its headquarters to a new country
- C. Local students organizing a nationwide walkout to demand climate legislation
- D. A central bank raising interest rates to combat inflation

**8. True or False: Satire and parody news sites are considered reliable primary sources for analyzing the factual causes of international conflicts.**

- A. True
- B. False

**9. A city trial testing 'Universal Basic Income' for its residents is primarily categorized as a \_\_\_\_\_ current event, though it may provide data for national policy debate.**

- A. Global
- B. Local
- C. Historical
- D. Military

**10. When evaluating the credibility of a social media post about a global health crisis, which action provides the strongest verification?**

- A. Checking if the post has more than 10,000 shares
- B. Reading the comments to see if most people agree with the post
- C. Cross-referencing the claims with data from peer-reviewed scientific journals
- D. Checking if the user has a professional-looking profile picture
