## Answer Key: Rainboots and Sun Hats: A Pre-K Guide to Seasonal Choices

Little learners select the right gear for the weather to show how we match our clothing to the world around us.

---

**1. If it is raining outside, what should you wear to keep your feet dry?**

**Answer:** C) Rain boots

Rain boots are made of rubber to keep water away from our toes when we splash in puddles.

**2. We wear heavy coats when the weather is very hot and sunny.**

**Answer:** B) False

We wear thin clothes like t-shirts when it is hot so we don't get too sweaty.

**3. When the sun is very bright, we wear a \_\_\_ on our head to shade our eyes.**

**Answer:** B) Hat

A hat with a brim acts like a little umbrella for your face to block the sun.

**4. What do we use to stay dry when walking in the rain?**

**Answer:** D) An umbrella

An umbrella catches the raindrops before they touch our heads.

**5. In the winter, we wear mittens to keep our hands warm.**

**Answer:** A) True

Mittens hold our hand heat inside so our fingers stay cozy in the snow.

**6. Birds build a \_\_\_ in a tree to have a safe place to sleep.**

**Answer:** B) Nest

Animals use things they find in nature, like sticks, to make homes that fit their environment.

**7. If you are going to play at the beach, what would you bring to protect your eyes?**

**Answer:** A) Sunglasses

Sunglasses have dark lenses that help us see better when the sun is bright.

**8. We can use water from the sink to wash our hands.**

**Answer:** A) True

People depend on water from the environment to stay clean and healthy.

**9. When it gets very cold, we put a \_\_\_ around our neck.**

**Answer:** B) Scarf

A scarf wraps around our neck to keep the cold wind away from our skin.

**10. Where does the wood come from to build a house?**

**Answer:** C) Trees

Humans use trees from the environment to get the wood needed for building things.
