## **What Would You Do? 5th Grade Moral Compass Challenge**

How do we choose between what is fair and what is easy? Identify ethical frameworks and solve real-world playground and classroom dilemmas.

---

**1. Imagine your soccer team has one spot left. You could pick your best friend, or a new student who is a much better player. If you choose the better player to help the whole team win, which goal are you following?**

- A. Following a strict family rule
- B. Doing what results in the most happiness for the group
- C. Only doing what is best for your best friend
- D. Making a decision based on a coin flip

**2. True or False: A person who follows 'Deontology' believes that some actions, like lying, are wrong even if the lie might save someone's feelings.**

- A. True
- B. False

**3. When a person focuses on being brave, kind, and fair in every situation rather than just following a list of rules, they are practicing \_\_\_\_ Ethics.**

- A. Result
- B. Rule
- C. Virtue
- D. Secret

**4. You find a \$20 bill in the empty school hallway. There are no cameras and no one saw you. If you turn it into the office because 'stealing is always wrong,' what is your primary motivation?**

- A. Fear of being caught by a teacher
- B. A sense of duty to follow moral rules
- C. Hoping the principal gives you a reward
- D. Calculating that \$20 isn't enough to buy much

**5. An ethical \_\_\_\_ occurs when you have to choose between two options, but both options have reasons why they might be right or wrong.**

- A. Dilemma
- B. Solution
- C. Direction
- D. Certainty

**6. True or False: In ethics, 'consequences' refer to the results or effects of an action.**

- A. True

**Name:** \_\_\_\_\_ **Date:** \_\_\_\_\_

B. False

**7. If a town builds a giant community pool that 500 kids will use, instead of a small private garden that only 5 people can use, they are likely using which ethical logic?**

- A. Selfishness
- B. Virtue Ethics
- C. Utilitarianism
- D. Deontology

**8. If you see a classmate being bullied and you step in to help because you want to be a 'loyal and brave friend,' you are acting based on your \_\_\_\_.**

- A. Math skills
- B. Character
- C. Schedule
- D. Luck

**9. True or False: Ethical dilemmas always have one mathematically 'perfect' answer that everyone agrees on.**

- A. True
- B. False

**10. Which of these questions would a Virtue Ethicist ask themselves before making a choice?**

- A. What are the school rules about this?
- B. How much money will I make?
- C. What would a person with high integrity do?
- D. Will I get in trouble if I get caught?
