Diamond Divers & Field Friends: 4th Grade Team Tactics Quiz

Calculate the best plays and analyze player movements beyond the basic rules to become a master of team strategy.

1. In softball or baseball, why might a coach tell a runner to 'tag up' after a fly ball is caught?

- A. To ensure they touch the base before the pitcher throws the next ball
- B. To legally attempt to run to the next base only after the ball is caught
- C. To signal to the umpire that they are safe
- D. To distract the fielders from making a double play

2. In Ultimate Frisbee, the person holding the disc is allowed to take up to five steps to gain momentum before throwing.

- A. True
- B. False

3. In Field Hockey, if a player uses the _____ side of their stick to hit the ball, it is a foul.

- A. Flat
- B. Rounded
- C. Short
- D. Bottom

4. Which role on a team is most responsible for 'spatial awareness'—knowing where everyone is to help move the ball forward?

- A. The goalie who stays in the net
- B. A midfielder who connects defense to offense
- C. A fan cheering from the sidelines
- D. The referee managing the clock

5. In Flag Football, 'rushing the passer' refers to the defense trying to pull the quarterback's flag before they can throw the ball.

- A. True
- B. False

6. When a lacrosse player uses their stick to protect the ball from an opponent by moving it back and forth, it is called _____.

- A. Cradling
- B. Swoosing
- C. Juggling
- D. Hooking

Name: _____ **Date:** _____

7. In many team sports, what is the primary benefit of 'non-verbal communication' like hand signals?

- A. It helps players practice their sign language skills
- B. It allows teammates to coordinate without the other team hearing the plan
- C. It is a requirement in the official rulebook for every play
- D. It makes the game faster for the spectators

8. In Water Polo, players are not allowed to touch the _____ or the sides of the pool during active play.

- A. Water
- B. Ball
- C. Bottom
- D. Goggles

9. Good sportsmanship is only necessary when your team is winning the game.

- A. True
- B. False

10. Imagine your soccer team is winning by one goal with only two minutes left. Which strategy would be most logical?

- A. Sending every player, including the goalie, to the opponent's net
- B. Focusing on 'defensive transition' to prevent the other team from scoring
- C. Walking off the field early to start the celebration
- D. Trying to get as many 'yellow cards' as possible
