## Answer Key: Arsenal of Democracy: A WWII Home Front Hero Quiz for Grade 4

Logistics, supply chain ethics, and civil rights — an analytical review perfect for a historical inquiry station or summative assessment.

---

**1. The Tuskegee Airmen were famous African American pilots who had to overcome prejudice at home to fight abroad. What did their success primarily prove to the U.S. military?**

**Answer:** B) That skill and bravery are not limited by a person's race

By performing exceptionally well, the Tuskegee Airmen challenged racial stereotypes and paved the way for the integration of the U.S. Armed Forces.

**2. Native American Marines known as \_\_\_\_\_ used their traditional languages as an unbreakable military code that the enemy could not decipher.**

**Answer:** B) Code Talkers

The Navajo Code Talkers created a code based on their unwritten language which was never cracked by the Japanese, proving vital for Pacific communications.

**3. True or False: During WWII, the U.S. government forced Japanese Americans into internment camps because they had evidence that these citizens were helping the enemy.**

**Answer:** B) False

Executive Order 9066 was fueled by fear and prejudice; no evidence was ever found that Japanese American citizens were disloyal to the United States.

**4. Imagine you are a factory owner in 1943. The government tells you to stop making cars and start making tanks. This shift in the economy was known as:**

**Answer:** B) Industrial Mobilization

Industrial mobilization is the process of a country shifting its private businesses toward producing military supplies to support the war effort.

**5. General George C. Marshall was known as the 'Organizer of Victory.' What was his primary role in helping the United States win the war?**

**Name:** \_\_\_\_\_ **Date:** \_\_\_\_\_

**Answer:** C) Planning the strategy and supply lines for the global army

Marshall served as Chief of Staff, meaning he supervised the massive logistics of getting millions of soldiers and equipment to different parts of the world.

**6. To save food for soldiers, many families grew their own vegetables in ' \_\_\_\_\_ ' located in their backyards or community parks.**

**Answer:** D) Victory Gardens

Victory Gardens allowed the commercial food supply to be sent to troops while letting families feel they were personally contributing to the win.

**7. True or False: The 442nd Regimental Combat Team, made up of Japanese Americans, became one of the most highly decorated units in U.S. military history.**

**Answer:** A) True

Despite their families being in internment camps, these soldiers fought bravely in Europe, earning thousands of awards for valor.

**8. What was the main purpose of the Manhattan Project, a top-secret program during the war?**

**Answer:** C) To create the atomic bomb using nuclear physics

The Manhattan Project was a massive scientific and military effort to create powerful nuclear weapons before Germany or Japan could.

**9. Because materials like rubber, silk, and gasoline were needed for the military, the government used \_\_\_\_\_ to limit how much a person could buy.**

**Answer:** A) Rationing

Rationing ensured that scarce resources were shared fairly among civilians so that the military had enough fuel and supplies to fight.

**10. True or False: Before the attack on Pearl Harbor, the United States was already actively fighting in land battles across Europe.**

**Answer:** B) False

The U.S. remained officially neutral and did not send troops into combat until after the Japanese attack on December 7, 1941.
