

Name: _____ Date: _____

Answer Key: Super Screen Stars: Social Media Skills for Success

Beyond simple screens—this quiz helps young learners identify real-world digital roles and the tools influencers use to share ideas.

1. What is a person called when they show you how to do something cool on a video?

Answer: A) An influencer

An influencer is someone who uses the internet to share ideas and help others learn about new things.

2. Influencers often use a camera to record their videos.

Answer: A) True

Cameras are the main tool influencers use so their friends and followers can see what they are doing.

3. When an influencer shows you how to bake a cake, they are sharing a ____.

Answer: B) Video

Videos are the most common way for influencers to show a process, like baking or crafting.

4. Which of these might a toy influencer show you?

Answer: B) How a new robot toy works

Toy influencers focus on playing with and explaining how different toys work for children.

5. You can only see influencers on a toaster.

Answer: B) False

Toasters make toast! You see influencers on digital screens like tablets, phones, or computers.

6. If you like a video, you can tap a button shaped like a ____.

Answer: B) Heart

A heart or a 'thumbs up' is a common symbol used on social media to show you enjoyed a post.

Name: _____ Date: _____

7. Where do influencers post their photos and stories?

Answer: B) On a social media app

Apps are the platform or 'place' on the phone where influencers share their work.

8. Some influencers help us learn how to be kind to others.

Answer: A) True

Many creators use their platform to talk about feelings, sharing, and being a good friend.

9. What should you do if you want to watch a video online?

Answer: B) Ask a grown-up for help

Safety first! Kindergarteners should always work with a trusted adult when using the internet.

10. An influencer who teaches exercise might show you how to _____.

Answer: B) Jump

Exercise influencers focus on movement, like jumping, dancing, or stretching.
