

Name: _____ Date: _____

Answer Key: You're the Ultimate Player! Prove Your 1st Grade Gaming Knowledge

Look past the screen to identify hardware parts and basic game rules. You will recognize controllers, consoles, and the meaning of 'Game Over'.

1. What is the name of the special TV or screen we use to see our video games?

Answer: B) A monitor

A monitor or a TV screen is what displays the pictures so we can play the game.

2. A 'Controller' is the tool you hold in your hands to move your character.

Answer: A) True

Controllers have buttons and sticks that tell the game what you want to do.

3. When you finish a whole part of a game, you usually move to the next ____.

Answer: A) Level

Games are broken into sections called levels or stages.

4. Which of these is a machine made specifically for playing video games at home?

Answer: B) A console

A console (like a PlayStation, Xbox, or Switch) is a computer built for gaming.

5. Video games are only for grown-ups and not for kids.

Answer: B) False

Many video games are made especially for children to learn and have fun.

6. If your character runs out of health, the screen might say 'Game ____'.

Answer: B) Over

Name: _____ Date: _____

'Game Over' is the common phrase used when you need to try a level again.

7. What is the person who plays a video game called?

Answer: C) A player

The person using the controls to interact with the game is the player.

8. You can play some video games on a tablet or a phone.

Answer: A) True

Mobile devices like phones and tablets are very popular for gaming.

9. A 'Handheld' game is one that is ___ enough to carry in your hands.

Answer: A) Small

Handheld systems are small and portable so you can play them anywhere.

10. In many games, what do you collect to get a high score?

Answer: C) Points or coins

Coins, stars, and points are common items players collect to show their progress.
