Outsmart the Screen: A 2nd Grade Digital Literacy Quiz

Spot tricky pop-ups, identify reliable web sources, and handle digital footprints before they leave a messy mark.

1. You are playing a game online and a bright button pops up saying 'You Won! Click here for a free toy!' What is the safest thing to do?

- A. Click the button quickly to get the toy.
- B. Ask an adult for help before clicking anything.
- C. Give the computer your home address.
- D. Type your name so the toy can be sent.

2. True or False: Once you share a photo or message online, it can stay on the internet forever.

- A. True
- B. False

3. A _____ is a secret code made of letters, numbers, and symbols that keeps your private information safe.

- A. Username
- B. Website
- C. Password
- D. Keyboard

4. If someone you don't know sends you a mean message while you are using a tablet, you should:

- A. Send a mean message back to them.
- B. Ignore it and keep playing alone.
- C. Tell a teacher or parent right away.
- D. Ask them why they are being mean.

5. True or False: You should use your real full name and birthday as your username on every website.

- A. True
- B. False
