

Name: _____ Date: _____

Bluey's Beat: Pre-K Music Discovery Quest

Go beyond simple listening to identify woodwind voices and marching rhythms through interactive sound matching and puppet-led movement analysis.

1. If we are listening to a song about a tiny mouse, should the music be very LOUD or very quiet?

- A. Very LOUD like a giant
- B. Very quiet like a whisper
- C. Like a honking truck
- D. Fast like a racecar

2. True or False: When the music moves fast, our bodies should move slowly like a turtle.

- A. True
- B. False

3. In 'The Carnival of the Animals,' the ___ sounds like a bird because it plays very high notes.

- A. Drum
- B. Flute
- C. Tuba
- D. Guitar

4. Listen! The music is jumping up and down. Which animal is the music pretending to be?

- A. A sleeping cat
- B. A bouncing kangaroo
- C. A swimming fish
- D. A slow snail

5. When the music sounds 'Blue' and a bit sad, it usually moves ___.

- A. Super fast
- B. Slowly
- C. Like a robot
- D. Spinning around

6. True or False: We can use our hands to clap along with the steady beat of a song.

- A. True
- B. False

7. The Violins are playing a smooth, flowing song. What does this music make you want to do?

- A. March in a line
- B. Pretend to leaf-skate or glide
- C. Stomp our feet hard

Name: _____ **Date:** _____

D. Clap loudly

8. A marching band uses a big ___ to make a loud, thumping sound like footsteps.

- A. Violin
- B. Drum
- C. Piano
- D. Whistle

9. True or False: Music can only tell us how to feel happy and never how to feel scared.

- A. True
- B. False

10. If the singer starts 'Scatting' (making sounds like 'Shoo-be-doo-ba'), which style of music are we likely hearing?

- A. Lullaby
- B. Jazz
- C. Opera
- D. Marching Music
